No Street Parking After 2” Snowfall

City Code 5-3-9 states: No vehicle shall be parked on any street, roadway, or roadway shoulder: 1) for a period of twenty four (24) hours after the accumulation of two inches (2”) or more of snow; or 2) until the street or roadway has been cleared of snow.

The Police Department assists the Street Division during any snowfall event that produces two inches of snow or more by enforcing the City’s parking ban on streets. The City Code is in place to keep the streets clear for snowplows to efficiently and safely remove snow from curb to curb. While the Police Department does not have control over when snowfall will be removed from City streets, it is empowered to ticket and tow vehicles parked in violation. Towing of vehicles is predicated on various factors, which include the length of time the vehicle was illegally parked and the type of hazard it presents.

Property owners are encouraged to remove the snow and ice from the sidewalk in front of their homes to accommodate pedestrians.

During the winter months please help firefighters by keeping the fire hydrants free and clear of snow and ice.
