With the pool season here once again, please take a few minutes to read over the pool rules posted in the Clubhouse, at the pool, and on the SHA website at www.shainfo.com. For the safety of the guests, we must remember these rules and listen and show respect to the lifeguards and front desk personnel, as well as other guests attending the pool. Please be respectful and clean up after your messes in the patio area and locker rooms. Anyone not complying with these guidelines will be asked to leave.

With everyone’s cooperation we can all look forward to a fun and safe pool season!

Just like an oil change, a transmission flush is just as important!!

Does your car have over 60k miles or more than 5 years old? It might be time for some maintenance.

Why do I have to get a transmission flush?

* Extends life of transmission.
* Saves $$ on costly repairs.
* Helps fuel economy.

The SCOOP on Zestimates

The Zestimate® home valuation is Zillow's estimated market value, computed using a proprietary formula. It is not an appraisal. It is a starting point in determining a home's value. The Zestimate is calculated from public and user-submitted data, taking into account special features, location, and market conditions. We encourage buyers, sellers, and homeowners to supplement Zillow's information by doing other research such as:

- Getting a comparative market analysis (CMA) from a real estate agent
- Getting an appraisal from a professional appraiser
- Visiting the house (whenever possible)

* Information came from Zillow
